PYLON flex

EPSILON SINGULARLOGIC

PYLON flex

The **Agentic** AI ERP & CRM!

pylon.gr

A Global Reset

From ERP as a system of record to ERP as a system of actions!

40%

Of enterprise apps will include AI agents by 2026

Gartner

WEB – born ERP

PYLON flex is fully cloud/web-native, not migrated

Web-native architecture

Connected, real-time, flexible with no legacy constraints

Agentic operations

AI Agents are embedded in the core of PYLON Flex

PYLON Flex

An ERP & CRM built around AI Agents, not simply enhanced by them

Cloud-native by design

100% cloud. No installation. Any device.
Zero maintenance and always up to date.

Unified business platform

Financial, Commercial and CRM managementin one connected environment.

AI-enabled foundation

Subscription-driven SaaS, built and evolved by EPSILONNET, with an AI-enabled development lifecycle.

AI Services: Launch Portfolio

Virtual Assistant

24/7 digital assistant that supports users across core business processes and application workflows

Business Insights

Service suite that analyzes financial health, commercial behavior and trading trends to identify opportunities, reduce risk & support better decisions

Sentiment Analysis

Analyzes customer and social comments to uncover trends, rank key customers, and identify concerns, opportunities and positive feedback

Content Generator

Uses Generative AI to create targeted marketing messages that promote products and services within a single campaign

Sales Forecast

Forecasts future sales using time-series models and machine learning, based on historical sales, seasonality, trends and market signals

Email Summary

Summarizes the most important points from the full history of an email conversation
